

VHF Frequencies on Adriatic sea

Weather report for the Adriatic Sea

Shore-based radio stations emit daily weather reports and weather forecasts for the upcoming 12 and 24 hour periods, both in Croatian and in English:

Radio station	Call sign	VHF channel	Time
Rijekaradio	9AR	04, 20, 24, 81	5:35, 14:35, 19:35 UTC
Splitradio	9AS	07, 21,23, 81	5:45, 12:45, 19:45 UTC
Dubrovnikradio	9AD	07,04	6:25, 13:20, 21:20 UTC

* UTC – universal time coordinating (= GMT, Greenwich Mean Time)

Constant weather forecasts on VHF – transmitters

Weather forecasts for the Croatian coastal region are provided in Croatian, English, Italian and German every ten minutes, and are updated at 7:00, 13:00 and 19:00 (local time). The summary presents an overview of the weather, a short forecast for the next 24 hours and information on air pressure.

VHF channel	Region
73	northern Adriatic / western coast of Istria
69	northern Adriatic / eastern part
67	central Adriatic / eastern part
73	southern Adriatic / eastern part
